

Please DO NOT allowing the "No-Call" list to be violated and infiltrated with telemarketing calls from ANY type of businesses or fund raisers affiliates. It has been wonderful to not have the phone ringing every night with these type of calls. PLEASE, PLEASE, don't let the financial institutions start doing this, it will only cause other companies to figure out a way to get their marketing calls in the door too and the "NO-CALL" option for the public will have failed. If I want to do business with a company I will call them myself. Thank You!!!!!!!!!!!!1
